

Invitation to Tender for the Management and Distribution of FleetNet Vehicle Codes

FleetNet is the principal independent organisation dedicated to the development and promotion of e-commerce in the fleet industry. Its Vehicle Model Code provides an independent and comprehensive set of vehicle description codes for universal use across numerous fleet industry applications. The codes are now well-established among a broad community of users, and it is vital that the data continues to be maintained at the highest level, and distributed quickly and cost-effectively through the most appropriate media.

FleetNet invite tenders from potential suppliers to manage and distribute the FleetNet Vehicle Model Codes on behalf of FleetNet to its users.

The deadline for proposals from potential suppliers is 3rd September 2010, with a target implement date of 1st February 2011.

To register interest, please contact: Colin Mallen, FleetNet Secretary:

Telephone: +44 (0) 870 732 4444,

E-Mail: Colin.Mallen@masterlease.uk.com.

This ITT is being run by a sub-group of the FleetNet steering committee, consisting of end-users only, and is fully independent of any data supplier or systems organisations, members of FleetNet or otherwise.
